ITB-UoA Summer School 2018

Petroleum Geoscience: Reservoirs, Resources, Reserves

The Summer School

This 10-days program offers a comprehensive introduction to the subject of petroleum geoscience – especially reservoirs, resources, reserves, and basic seismic and rock physics. The program will involve several excursions to Tangkuban Parahu volcano, Kamojang Geothermal field, and Kamojang craters. Cultural and social activities are included in the program. This program is suitable for the undergraduate students who have had some exposure to geoscience

LECTURERS

Prof. Dr. John Kaldi (UoA)
Prof. Dr. Sigit Sukmono (ITB)
Dr. Ignatius Sonny Winardhie (ITB)
Dr. Fatkhan (ITB)
Dr. Alfian Bahar (ITB)
Dr. Mohammad Rachmat Sule (ITB)

There are no fees for participating in this summer school program. However, each participant needs to provide self-funding for hotel accommodation in Bandung, excursion tickets and meals (AUD 500 or EUR 325). For further information, please contact: Dr. M. Rachmat Sule (rachmat@gf.itb.ac.id)
